Expanded Metal Mesh

Metaface India's Expanded Metal Mesh is engineered for versatility – combining durability with visual appeal. Manufactured by slitting and stretching metal sheets into diamond-shaped patterns, it delivers a one-piece, jointless structure that offers exceptional strength-to-weight ratio. All our products are available in various finishes such as powder-coated, anodized & PVDF coated to match your requirements. We specialize in delivering complex, end-to-end metalworking projects that encompass engineering & designing with installation support..

APPLICATION & FEATURES

KEY FEATURES

- **Seamless Construction** : Made from a single sheet — no welds, no weak points
 - **High Strength**: Excellent load-bearing capacity with minimal weight
 - **Ventilation & Visibility** : Perfect balance between airflow, light passage, and privacy
 - **Anti-Slip Surface** : Ideal for flooring, walkways, and protective screens
 - **Design Flexibility** : Wide range of mesh sizes, strand widths, and thicknesses
-

APPLICATIONS

- Architectural Facades, Sun Shade & Cladding
- Security Panels & Fencing
- Machine Guards & Safety Covers
- Walkways, Platforms & Stair Treads
- Ceilings, Partitions & Decorative Panels
- Filters, Grilles & Enclosures
